

Residential Softeners

- Cabinet and two-tank styles available
- Manufactured in almond and black colored components
- Corrosion resistant materials aid in component longevity
- Bypass valve included with all softeners
- All softeners use five-cycle automatic regeneration
- Standard Fleck metered regeneration control
- Electronic Autotrol time clock regeneration control available
- Turbulator option available

Cabinet

Two-tank

Benefits of softening hard water...

- Reduce scaling typically seen as a white streak
- Less use of detergents and soaps to generate a lather
 - Soften water is less harsh on hair and skin

MODEL	SERVICE CAPACITY (Grains)	SALT PER REGENERATION (lbs.)	STYLE	FLOOR SPACE (inches)	MAXIMUM HEIGHT (inches)	SHIPPING WEIGHT (lbs.)	PIPE SIZE (inch)
